The ALS Association recognized that people living with ALS, or amyotrophic lateral sclerosis face unique challenges.

We have partnered with Patient Advocate Foundation (PAF) to offer the ALS Medicare Resource Line as a further extension of ALS Association's commitment to serve, advocate for, and empower people affected by ALS to live their lives to the fullest.

The ALS Medicare Resource Line offers free, one-on-one support to patients and families to help them solve real-life problems related to an ALS diagnosis. Whether you need help finding resources for financial aid, understanding coverage options, resolving issues with the insurance company, or applying for disability, we are here to support you.

All services are confidential and free of charge.
